PROCLEAN DIRECT

Page 1 to 1

Version 2

1. PRODUCT DESCRIPTION

PROCLEAN DIRECT a ready to use reclaiming product for screen printing.

Shelf life: 2 years at 20°C.

2. APPLICATION

PROCLEAN DIRECT is a fast reclaiming liquid. It has no smell, no chlorine and is non-corrosive.

3. USE

Remove all inks from the screen with a water emulsifiable cleaner. Rinse with water. Dry off the excess water to avoid any dilution of the PROCLEAN DIRECT.

Evenly spread the liquid on both sides of the screen using the brush. Leave for about five minutes and wash off with a high pressure water jet. It is also possible to rub the screen until the emulsion disappears. Then wash with a lot of water.

Never let the PROCLEAN DIRECT dry on the screen, then the combination of the emulsion and PROCLEAN DIRECT will be very difficult to get off. Make sure you keep the process of degreasing and coating separately from each other, the vapour coming from the liquid condenses on the mesh and give a poor coating adhesion.

4. FIRST AID PROCEDURES

INHALATION:

None.

EYE CONTACT:

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.

In the event of persistent irritation or any lesions, consult an oculist.

SKIN CONTACT:

Wash off with soap and water.

INGESTION:

Clean mouth with water. Do not induce vomiting.
